OUTLOOK:

Arizona will be partly cloudy in the central and eastern portions, with scattered afternoon thunderstorms. Western Arizona will be sunny. High temperatures will range from the 70's in the mountains to 109 in the deserts.

New Mexico and Colorado will be partly cloudy with scattered afternoon thunderstorms, especially over the mountains. Temperatures will be in the 60's and 70's in the mountains, and the 80's and 90's at the lower elevations.

Partly cloudy skies, cooler temperatures, and a few showers and thunderstorms are forecast for the northern and central portions of Nevada. Sunny and hot conditions will dominate the south. Temperatures will range from the 70's in the north to near 105 in the southern deserts.

California will have partly cloudy skies in the north with a few showers near the Oregon border. The southern and central portions will be mostly sunny. Coastal temperatures will be in the 60's and 70's. Temperatures will range from the 70's and 80's in the mountains to the 90's and 100's in the valleys and deserts.

An upper trough, over the Bering Sea, will result in a moist southwesterly flow over much of Alaska. Mostly cloudy skies with areas of rain are possible in the northern and western portions of the state. The interior will have scattered showers and thunderstorms. Temperatures will be a little cooler, ranging from the 50's along the coast and the 60's in the interior.
